Subject: Auto Parts - FMC Claims

Date:Thursday, January 13, 2022 2:23:26 PMAttachments:Crowell - Overlapping VINS (Sample).xlsx

Emma,

Thank you for speaking with us yesterday. In our call, you indicated that Crowell had not submitted claims for different clients that are based on the same overlapping VINs. You also requested that we send you examples of any overlap that we found in our records. Pursuant to your request, attached is a very small sample of claims seeking recovery based on overlapping VINs that Crowell submitted on behalf of at least three different claimant entities.

As discussed on our call, Crowell has submitted a large number of claims on behalf of its clients where two or more claimants are asserting claims based on the same overlapping VINs. Please take another look at your data so that you may identify these and other overlapping VINs that Crowell submitted. Once you have identified the overlap, we would like to better understand the reasons why overlapping claims have been submitted. In addition, other claimants, including customers of FMCs and FMC Claimants have submitted their own claims for many of the same VINs covered by claims Crowell submitted. We would like to better understand potential reasons for this overlap as well.

It appears that Crowell has also submitted claims for AutoNation in the End Payor cases and the Auto Dealer cases. Do you know if the claims are based on the same vehicles? We would like to determine whether Crowell takes the position that an Auto Dealer is entitled to receive payments from the End Payor settlements when it has already received payments from the Auto Dealer settlements.

Regards,

Chanler
